

MANASSAS, VIRGINIA – Preparations are underway at Manassas, Virginia for the 15th ISSA World Championships to be held on August 14-16, 2009. World-class senior softball events have been held continuously in Prince William County since 1995 which gave rise to the area becoming known internationally as the Senior Softball Capital of the World. Teams from throughout the United States (and sometimes international locations) continue to find this event to be a preferred destination to compete in senior softball. With excellent softball facilities surrounded by many historical sites that were significant to the growth and development of the Country, some players schedule in additional days to visit area attractions including our Nation's Capitol. So why not explore our nation's heritage and learn more about the people, the times and the decisions that made America while in Manassas for the ISSA World Championships this year.

Competition has been programmed for senior women beginning at age 40 and senior men at age 50. Again this year the World Championships will also include Masters Divisions for 35+, 40+ and 45+ men's teams. The tournament information can be copied from the ISSA Website.
